Malayalam
Hindi

Jestin G Johnson
Python Django Full Stack Developer

I am a Python Full Stack Developer, and I'm excited about the opportunity to work on stimulating and demanding projects. With a solid foundation in both front-end and back-end development, as well as expertise in various technologies and methodologies, my dedication lies in driving innovation, optimizing efficiency, and delivering high-quality solutions that contribute significantly to the organization's growth and success.

Experience

March 2023- September 2023

Luminar Technolab ,a Kochi (Trainee)

As a Python Full Stack Intern at Luminar Technolab ,Kochi , I had the opportunity to gain valuable hands-on experience in developing web applications from end to end. This internship provided me with a dynamic learning environment to expand my skills in both front-end and back-end development while contributing to real-world projects. Front-End Development: Collaborated with the front-end development team to create visually appealing and user-friendly interfaces using HTML, CSS, and JavaScript. Implemented responsive design principles to ensure seamless user experiences across various devices. Back-End Development: Worked closely with senior developers to design, develop, and maintain server-side components using Python and relevant frameworks Django. Database Management: Assisted in database design and management using technologies like MySQL queries for efficient data retrieval and modification.

Projects

- **HolyCross - Hospital Management**

Technology Used—Django, Python, Django Modules, SQLite, Html, CSS and JavaScript

Description—Developed a Django-based web application for a hospital management system, with a primary focus on enabling patients to schedule appointments with doctors seamlessly.
